

# HSB ENVIRONMENTAL POLICY

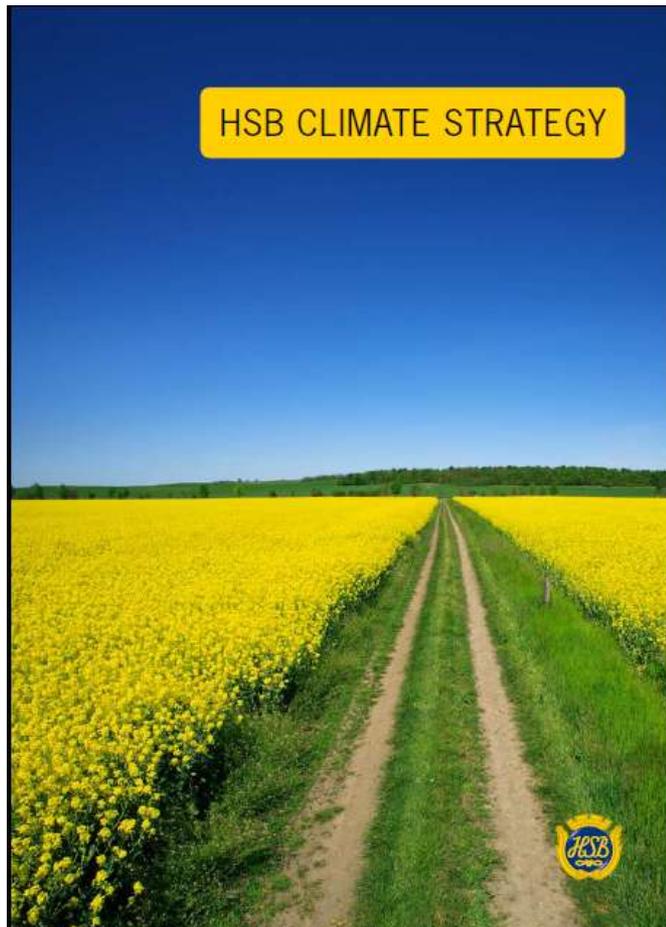

LINN MATIC

HSB – där möjligheterna bor

# HSB CLIMATE STRATEGY

- Co-operation and progress
- Opinion-shaping
- Change of the energy system within HSB
- Passed by the board of the National Association in December 2008

# WHY A CLIMATE STRATEGY?

- The residential sector's impact on the climate is significant
- Ethically responsible organisation
- The public expects us to have a clear stance on the climate issue

HSB - där möjligheterna bor

# HSB CLIMATE TRAIN

# ENVIRONMENTALLY CLASSIFIED BUILDINGS

- Comprises the most important environmental impacting building aspects
- 16 different indicators in the areas energy, indoor climate and chemical substances
- Formulated in cooperation with the Swedish government, companies and municipalities

# BVB

## BYGGVARUBEDÖMNINGEN™

ENVIRONMENTAL EVALUATION OF BUILDING PRODUCTS

*This is an introduction to the unique collaboration in Swedish construction, called BVB. The organisation sets common criteria for environmental evaluation of building products. The aim is to provide a standard for the entire Swedish building sector.*

# UNDERSTENSHÖJDEN 1995

# CONSTRUCTION TEMPLATES

<b>Aspect</b>	<b>Level C (regulated in Swedish law)</b>	<b>Level B (Standard in HSB Construction templates)</b>	<b>Level A</b>	
Timber (tropical)	-	Timber from tropical sources must be FSC or other relevant certification	-	

# VALÖ FYR 2010

HSB - där möjligheterna bor

# THANK YOU!
